

James Skinner

Product Designer

London, UK | james.skinner99@outlook.com | [LinkedIn](#) | [Portfolio](#)

ABOUT ME

Product Designer with hands-on experience across Fintech, Sport Tech, AR/VR, and D2C consumer apps. Currently helping build Moneybox's acclaimed investing proposition and payments infrastructure, serving over 2 million active users. A data-driven problem solver who distils complex challenges into intuitive, accessible interfaces - bringing a diverse background across digital product design, architecture, and graphic design.

SKILLS

Design Tools: Claude, Figma, Figma Make, Adobe Creative Suite, Cursor, Bolt, Gemini

Analytics & Data: Mixpanel, Power BI, Count, A/B Testing, Data-Driven Design, Funnel Analysis

Design Practice: AI-Driven Workflows, Design Systems, Prototyping, Accessibility (WCAG), Product Strategy, Design Leadership, Wireframing, User Research, Usability Testing, Information Architecture, Interaction Design.

Fintech Domain: Investing products, Portfolio Insights, Payments Infrastructure, Regulated Consumer Products.

Platforms: iOS, Android, Web, Cross-Platform Mobile, AR/VR

Collaboration: Agile, Stakeholder Management, Cross-Functional Teams, Engineering Handoff, Design Critique.

EXPERIENCE

Product Designer — Moneybox

01/2025 – Present | London, UK

- Led the redesign and portfolio allocation strategy for Stocks & Shares ISA and Personal Pension products. Optimised user acquisition and lifecycle funnels, driving a 22% increase in cross-sell conversion contributing to a 33% growth in net deposits.
- Advocated and led the design for a reusable pageCarousel Design System component to provide more engaging experiences whilst being delivered by CMS server-driven UI.
- Reduced transfers out by 12% and drove higher average AUA among advanced investors by delivering the end-to-end UX for the Investing Insights product, unlocking granular analysis across ESG, geography, and sector assets.
- Embedded quantitative product analytics (Mixpanel, Power BI, Count) into the design lifecycle to define success metrics, validate product hypotheses, experiment and continuously measure feature adoption across the core investing proposition.
- Accelerated time-to-market and streamlined engineering handoffs by embedding generative AI (Claude, Gemini, Figma AI) into daily operations. Developed a custom AI

accessibility auditor to automate design critiques and technical documentation, saving designers at Moneybox at least 4 hours per project.

Co-Founder & Founding Product Designer — Voulez Vous

07/2023 – 12/2024 | London, UK

- Bootstrapped and launched a cross-platform (iOS and Android) computer-vision cocktail app, owning end-to-end product design, branding, operations, and marketing.
- Drove iterative design decisions with data, translating user insights into a product that achieved over 800 UK downloads – demonstrating strong user-centred and data-driven design capability.

UX/UI Designer — Hawk-Eye Innovations

03/2023 – 11/2024 | London, UK

- Australian Open 2024 Tennis App: Designed and delivered an end-to-end officiating app that consolidated legacy systems, reducing operator requirements by 50% per game, court, and tournament.
- VR / AR Product Design: Led end-to-end user research, wireframing, prototyping, and usability testing for accessible cross-device experiences in collaboration with FIFA and the FA.
- VR Control Software: Designed end-to-end video, VR, and data editing software (comparable to Adobe Premiere Pro) used by Sony operators across football, tennis, and cricket events.
- Design System & Chart Library: Key contributor to Hawk-Eye's KitBag Design System and Chart Library, supporting consistency across products and teams.

EDUCATION

DesignLAB UX Academy

09/2022 – 02/2023 | Remote

UX/UI Design programme.

Newcastle University

2019 – 2022 | Newcastle, UK
